The following application is to be used for homes within Promontory Pointe HOA. The application is based on the Design Guidelines and Community Standards for Promontory Pointe, so the Homeowner should review the Guidelines in preparing the required application. When submitting your plan for approval, please include the following:

Landscape Revisions or Additions – please submit a graphically scaled drawing (hand sketched is acceptable) that includes the following:

- Landscape area of the lot. This is done by subtracting the house footprint and pavement square footage from the total square footage of the lot. If you have a copy of your ILC (improvement location certificate) this is an excellent to-scale document that you can use.
- Lot to Lot Transitions illustrated on plan for landscape to match neighboring lots.
- Type of irrigation system (drip, microspray, spray).
- All areas of ground cover including, but not limited to, grass, rock and/or mulch. Please include type, size & color of rock/mulch. Designate existing vs. new.
- Location of trees & shrubs including type and size at planting and maturity. Designate existing vs. new.
- Retaining walls with location, material, height, and length. Designate existing vs. new.
- Any landscape lighting. Designate existing vs. new.
- Any additional concrete – patios, patio extensions or walkways. Designate existing vs. new.

Play/Sports Equipment (Permanent or Portable) – if possible, please attach a brochure of the proposed structure; the maximum height for play equipment is eleven (11) feet.

- Type of Equipment: _____
- Proposed placement: _____
- Height/Dimensions: _____
- Material: _____

Deck/Patio Addition – please provide a drawing to include the placement, size/dimensions, material, & color. In addition to Design Review Approval, you may be required, depending on the addition, to obtain approval by the Regional Building Department.

Fencing – Please attach a drawing showing location. If you have a copy of your ILC (improvement location certificate) this is an excellent to-scale document that you can use.
